Volunteer **Network** for Project Enthusiastics

- **We connect** project-loving people:
 - **Young people** willing e.g. to gain experience in leadership and project management, grow their national & international networks, meet potential employers, meet peers and make friends, and those looking for something meaningful to do on their free time!
 - **Experienced professionals** looking e.g. for ways to share their experience with future leaders, seeking ways to challenge their thinking and keep growing, and those willing make a meaningful impact in project culture building bridges between generations!
 - **Organisations** looking for e.g. skilled and driven young professionals to do projects with or to employ, willing to develop their project culture future proof, willing to learn from diversity and strengthen international and national networks, and those

Scenario| Office renewal project (demo shown at the keynote)

- ✓ Conducting market research – Copilot Chat
- ✓ Summarizing the findings as a Word document
– Copilot in PowerPoint
- ✓ Visualizing the findings as a PowerPoint presentation
– Copilot in PowerPoint
- ✓ Drafting and finalizing an email about the findings using the created content – Copilot Chat

**Maximize productivity with Microsoft Copilot
for Microsoft 365 | Demo (youtube.com)**

Scenario | Office renewal project

Conduct market research

 Microsoft Copilot

"am starting an office renewal project. Please advise me on the latest trends of modern office spaces."

Prepare for a meeting

 Microsoft PowerPoint

Turn the briefing document into a visual presentation

Form an overview based on the market research & financials

 Microsoft Word

Combine the market research & financials to a briefing document

Combine all content into an email

 Microsoft Copilot

"Write an advisory email about office renewal project to the CEO"

What is a custom Copilot?

Copilots are intelligent AI assistants that use generative AI and large language models to assist humans with complex cognitive tasks

Building blocks

Knowledge

Existing enterprise data in or outside of M365 that copilot can query

Actions

Tasks and processes your copilot can perform across LOB services/apps

Logic

Defined conversation paths for your copilot to follow when triggered

Channels

Where and how your end users engage with your copilot

Build your own copilot! New Microsoft Copilot extensions (youtube.com)

manager

Team Copilot

A valuable new member of the team

Meeting
facilitator

Copilot enables a more productive discussion in meetings by managing the agenda and taking notes anyone in the meeting can coauthor.

Group
collaborator

Copilot helps everyone get more out of chats, surfacing the most important information, tracking actions items, and addressing unresolved issues.

Project
manager

Copilot ensures every project runs smoothly by creating and assigning tasks, tracking deadlines, and notifying team members when their input is needed.

Team Copilot

A valuable new member of the team
